Performance Criteria	As described in the relevant OS units	

Definitions	Keywords /Terms	Description
	Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests
	Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components
	Occupation	Occupation is a set of job roles under which role-holders perform similar/related set of functions in an industry
	Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS
	Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization
	OS (Occupational Standards)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts
	Performance Criteria	Performance criteria are statements that together specify the standards of performance required when carrying out a task
	National Occupational Standards	NOS are Occupational Standards which apply uniquely in the Indian Context
	QP (Qualification Pack)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.
	Qualification Pack Code	Qualifications Pack Code is a unique reference code that identifies a qualifications pack
	Scope	Scope is a set of statements specifying the range of variables that an individual may have to deal with, in carrying out the function which has a critical impact on the quality of performance required
	Unit Code	Unit Code is a unique identifier for an Occupational Standard , which is denoted by an 'N'
	Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for	
Knowledge and Understanding	Knowledge and Understanding statements which together specify the technical , generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standards	
Organizational Context	Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility	

Technical Knowledge	Technical Knowledge is the specific knowledge needed to accomplish specific designated responsibilities
Core Skills/Generic Skills	Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the OS , these include communication related skills that are applicable to most job roles

The following acronyms/codes have been used in the nomenclature above:

Definitions	Keywords /Terms	Description
	CCU	Charge Controller Unit
	GP	Gram Panchayat
	NOC	Network Operations Centre
	ONT	Optical Network Terminal
	OLT	Optical Line Terminal
	ODF	Optical Distribution Frame
	PM	Preventive Maintenance
	SLA	Service Level Agreement
	SP	Service Provider
	SPV	Solar Photo Voltaic System
TJB	Terminal Joint Box
